HEALTH DEPARTMENT,
COUNCIL HOUSE,
CLEETHORPES.

JULY, 1969

To The Mayor, Aldermen and Councillors of the Borough of Cleethorpes.

LADY AND GENTLEMEN,

I have the honour to present the Annual Report on the health of the Borough of Cleethorpes for 1968. The statistics indicate a healthy community, comparing favourably with the national figures.

I should like to express my appreciation of the help and consideration given me by the Chairman and members of the Public Health Committee.

I am grateful to the County Medical Officer and his Staff for information relating to the Lindsey County Council's Services in the Borough.

I would like to thank Mr. Finch and members of the Public Health Department for their willing help and co-operation throughout the year.

In conclusion I would like to thank all the members and staff of the Borough for their help and support during my term of office as your Medical Officer of Health.

I am,

Your obedient servant.

J.M.B.CARR.

Medical Officer of Health

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

The Borough is a seaside holiday resort on the North East Lincolnshire coast at the mouth of the River Humber. It has many fine residential localities. The chief occupations of its residents are the seaside holiday trade, fishing and its various allied industries, frozen foods and in the chemical factories of the Humber Bank.

STATISTICS FOR 1968

Area of the Borough (above high water mark)	2,262 acres
Registrar General's Estimated mid year population	34,740
Number of Inhabited houses	11,677
Rateable Value 1st April, 1969	£1,069,286
Product of a Penny Rate	£4,317

VITAL STATISTICS

Deaths :	Total number of deaths	391
	Death Rate per 1,000 population	11.3
	Corrected Death Rate	11.6
	(Comparability Factor 1.03)		
Births :	Total number of live births	654
	Birth Rate per 1,000 population	18.8
	Corrected Birth Rate	19.0
	(Comparability Factor 1.01)		
	Number of Illegitimate live births	81
	Percentage of Total live births	12.3
Stillbirths :	Total number	6
	Stillbirth Rate per 1,000 live and stillbirths	9.0
	Total live and stillbirths	660
Infant Deaths (deaths under one year)	19
Infant Mortality Rate:			
	Total Infant Deaths per 1,000 total live births	29.0
	Legitimate infant deaths per 1,000 legitimate live births	33.2
	Illegitimate infant deaths per 1,000 illegitimate live births	Nil
Neo-Natal Mortality Rate (deaths under four weeks per 1,000 total live births)	19.6
Early Neo-Natal Mortality Rate (deaths under one week per 1,000 total live births)	18.3
Perinatal Mortality Rate (stillbirths and deaths under one week combined, per 1,000 total live and stillbirths)			27.0
	Total infant deaths under 4 weeks of age	13
	Total infant deaths under 1 week of age	12
Maternal Mortality (including abortion): Number of deaths			0
	Rate per 1,000 total live and stillbirths	0

STATISTICS FOR CLEETHORPES M.B. SINCE 1959

	1959	1960	1961	1962	1963	1964	1965	1966	1967	1968

COMPARATIVE STATISTICS FOR 1968

	<u>Cleethorpes</u>	<u>LindseyC.C.</u>	<u>England & Wales</u> <u>(Provisional data)</u>
Birth Rate	19.0	17.9	16.9
Stillbirth Rate	9.0	16.0	14.0
Death Rate	11.6	11.4	11.9
Infant Mortality Rate	29.0	19.0	18.0
Neo-Natal Mortality Rate	19.6	13.6	12.3
Early Neo-Natal Mortality Rate	18.3	12.1	10.5
Perinatal Mortality Rate	27.0	28.0	25.0

POPULATION

The national increase in the population, i.e. the excess of births over deaths, in 1968 was 263 which compares with the figure of 202 for 1967.

The Registrar General's estimated mid year population of 34,740 is 760 above the 1967 figure. This compares with the estimated increase of 210 in the period 1966 to 1967.

BIRTHS

The corrected birth rate is obtained by multiplying the crude birth rate (18.8) by the factor of 1.01. This factor is provided by the Registrar General and enables the comparison of birth rates of all districts regardless of age and sex distribution. The live birth rate for Cleethorpes, corrected in this way, is 19.0 per 1,000 of population. This is well above the live birth rate for England and Wales in 1968 which is 16.9 per 1,000.

This reverses the trend of the last few years which has been a gradual fall in the birth rate. Nationally the birth rate is still falling.

The percentage of illegitimate births has increased to 12.3% of the total live births (12.1% in 1967) and is the highest figure recorded in the last 10 years). Nationally there has been an increase in illegitimate births since 1956, when the rate was 4.8% per total live births, to the present figure of 8.4% of the total live births.

CLASSIFICATION OF CAUSES OF DEATH IN THE
BOROUGH OF CLEETHORPES

CAUSES OF DEATH	1968		Totals	
	Males	Females	1968	1967
Tuberculosis,Respiratory	1	-	1	3
Tuberculosis,Other	-	-	-	-

Other defined and ill-defined diseases	10	14	24	23
Motor vehicle accidents	5	2	7	2
All other accidents	4	4	8	6
Suicide	2	1	3	3
TOTALS	218	173	391	378

DEATHS

The total number of deaths from all causes has risen from 378 in 1967 to 391 to give a corrected death rate of 11.6 per thousand population. This is higher than last year but is below the national figure of 11.9

Diseases of the heart and circulatory system continue to be the main cause of death accounting for 182 deaths or 46% of the total deaths. Coronary disease is much the most important single cause of death.

Cancer in all its forms accounted for 84 deaths or 21% of the total deaths. Cancer of the lung is the most important cancer, especially in males, causing 19 deaths.

Deaths due to cancer and diseases of the heart and circulatory system account, therefore, for nearly 70% of the deaths in the district. It must be emphasised that these conditions are ones in which the individual can take preventive action. If the inhabitant of the Borough were to reduce their weight to the ideal level, take more exercise and stop smoking they would feel much fitter and within a few years the mortality figures for the Borough would show an improvement.

Deaths in Age Groups - 1968

Age	Male	Female	Total
Under 1 year	10	9	19
1 - 4 years	2	-	2
5 - 14 years	2	-	2
15 - 24 years	2	3	5
25 - 34 years	1	1	2
35 - 44 years	7	3	10
45 - 54 years	14	12	26
55 - 64 years	33	17	50
65 - 74 years	69	40	109
75 and over	78	88	166
Total number of deaths . . .			391

Stillbirths and Infant Mortality

There were 6 stillbirths in 1968 (1 less than in 1967) and 19 infant deaths under 1 year (13 in 1967). The infant mortality rate, neo-natal mortality rate, early neo-natal mortality rate and perinatal mortality rate are all above the national figures. The stillbirth rate is below the national figure and is the lowest figure recorded in the Borough.

Maternal Mortality

There were no maternal deaths during the year.

INFECTIOUS DISEASES

Notified Infectious Diseases - 1968

Disease	Total Cases Notified
MEASLES	326
WHOOPING COUGH	11
SCARLET FEVER	15
PULMONARY TUBERCULOSIS	13
NON-PULMONARY TUBERCULOSIS	3
PUERPERAL PYREXIA	7
DYSENTRY	23
FOOD POISONING	3
INFECTIVE JAUNDICE	14
TOTAL	415

Various changes occurred during 1968, in the legislation with regard to infectious diseases. The Public Health (Infectious Jaundice) Regulations 1968 made infectious jaundice notifiable with effect from the 15th June 1968. The Public Health (Infectious Diseases) Regulations 1968 altered the list of notifiable diseases in that acute primary pneumonia, acute influenza pneumonia, acute rheumatism, erysipelas, membranous croup and puerperal pyrexia are no longer included in the list while tetanus, yellow fever and leptospirosis are added to the list. These changes take effect from 1st October 1968.

TUBERCULOSIS

Patients attend at the Chest Clinic, Abbey Road, Grimsby. by appointment.

INFECTIOUS DISEASES NOTIFIED 1959-1968

Notifiable Diseases	1959	1960	1961	1962	1963	1964	1965	1966	1967	1968

* Notifiable w.e.f. 15th June 1968
x Ceased to be notifiable from w.e.f. 1st October 1968

The Register of Tuberculosis for the year is as follows:-

	Pulmonary		Non-Pulmonary		Total
	Male	Female	Male	Female	
Number of cases on the Register at 31st December 1967	152	94	31	32	309
Added to the Register					
(a) cases notified for the first time during the year	7	4	3	1	15
(b) cases brought to notice other than by formal notification, (transfers in) etc.	3	2	-	-	5
Removed from the Register on account of death, change of address, etc.	4	2	-	2	8
Number of cases on the Register at 31st December 1968	158	98	34	31	321

The Tuberculosis After Care Committee renders valuable service in the after care of cases of tuberculosis. Special attention is given to necessitous cases and their families; assistance being given in obtaining extra nourishment, clothing, etc. and in the form of holiday grants.

VENEREAL DISEASE

Facilities for the diagnosis and treatment of venereal diseases are available at the Special Treatment Centre, 38 Queen Street, Grimsby.

I am indebted to Dr.D.O.Stevenson for the following statistics which relate to patients from Cleethorpes who attend the Special Treatment Centre.

Condition	Males	Females	Total
Early Syphilis	1	-	1
Latent Syphilis	-	-	-
Congenital Syphilis	-	-	-
Gonorrhoea	16	11	27
Other Conditions	60	7	67
1968 Total	77	18	95
1967 Total	86	33	119

GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

HOSPITALS

Facilities for treatment are available at the Scartho Road Hospital, Grimsby General Hospital and Springfield Infectious Diseases Hospital.

MATERNITY HOSPITAL, CLEETHORPES

This report is included by the courtesy of the Secretary of the Grimsby Hospitals Management Committee.

1. Name and address of the Institution:

Croft Baker Maternity Hospital,
Mill Road, Cleethorpes, Lincs.

2. Number of Maternity cases admitted during the year	1161
3. Number of Maternity beds in the Institution (exclusive of isolation and labour beds)	32
4. Average duration of stay of cases in the lying-in wards	7.05
5. Number of cases delivered by	
(a) Midwives	1045
(b) Doctors	116
6. Number of cases in which medical assistance was sought by a midwife in emergency	15

LINDSEY COUNTY COUNCIL WELFARE SERVICES, 1968

I would like to thank the County Welfare Officer and the Area Welfare Officer for providing the following report:-

"For the purpose of Welfare administration, Lindsey County is divided into six areas. Each area office is under the direction of an Area Welfare Officer who supervises a welfare team comprising of Social Welfare Officers, Home Help Officer, Welfare Assistant(s) and appropriate Clerical workers. Also working closely with each team are the following Officers:- Mental Health, Child Care, Occupational Therapists and Handicraft Instructors.

The Cleethorpes area covers approximately 20 square miles and includes Cleethorpes Borough and 49 parishes. The staff is as follows:-

Area Welfare Officer	-	Mr.F.Leo
Social Welfare Officers	-	Mr.E.G.Hutchinson Mrs.D.M.Telford
Home Help Officer	-	Mrs.E.P.Marshalsea
Assistant Home Help Officer		Mrs.M.Trevor-Jones
Welfare Assistant	-	Mrs.S.Parker
Handicraft Instructors	-	Mrs.D.Kingsland - Full time Mrs.R.P.Cole - Part time
Mental Health Officers	-	Mr.W.T.Robson Mr.J.K.Sweeney
Child Care Officers	-	Area Child Care Officer and 3 staff operating from 14 Upgate, Louth
Registrar, Births Deaths and Marriages	-	Mr.C.E.Burgess

With effect from February 1969 the 2 Mental Health Officers and Childrens Staff will operate from new offices situated next to the clinic - St.Hugh's Avenue, Cleethorpes - all enquiries for these services should be directed to these premises.

BLIND AND PARTIALLY SIGHTED

The number of blind persons in Cleethorpes Borough in 1968 was 61. The number of partially sighted persons registered in Cleethorpes Borough was 23.

A wide range of services are provided in co-operation with the Lindsey Blind Society and the Royal National Institute for the Blind, including a Social Centre, the teaching of Braille and Handicrafts etc.

PHYSICALLY HANDICAPPED - General Classes other than Blind and Partially Sighted

Number registered in Cleethorpes Borough in 1968 - 145

Services provided in co-operation with the Lindsey Society for the Handicapped include a Social Club and Handicraft classes. Other services:- Home tuition in Handicrafts and a wide range of aids and adaptations are available to enable the disable to lead as full and independant lives as possible. A special bus with hydraulic lift is provided to transport the severely disabled to craft classes, socials and on outings.

AGED

Residential homes are provided for those who, through age or infirmity, are in need of care and attention - not otherwise available to them.

Support has been given to relations having the care of elderly parents by providing temporary accommodation for holiday periods. This has not been confined to the summer periods only, but has continued throughout the full year.

ADMISSIONS

	<u>Permanent</u>		<u>Temporary</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
Cleethorpes Borough	7	13	14	11

The temporary admissions effected were in order to give relatives of aged persons the opportunity to have a much needed holiday themselves.

HOME HELP SERVICE

During 1968, in the combined area of Cleethorpes Borough and Grimsby Rural District, a total of 609 cases were attended. These were divided into the following categories:-

<u>Aged</u>	<u>Chronic Sick & T.B.</u>	<u>Mentally disordered</u>	<u>Maternity</u>	<u>Others</u>
544	36	Nil	12	17

Persons receiving domestic help under the County Council's scheme are required to pay such charge as, having regard to the means of those persons the County Council consider reasonable.

The Home Help Officer can be interviewed at 31 Market Street, Cleethorpes, at the following times:-

Monday	9 a.m. to 12.30p.m.	2p.m. to 5.30p.m.
Tuesday	9 a.m. to 12 noon	
Wednesday	9 a.m. to 12 noon	
Thursday	9 a.m. to 12 noon	
Friday	9 a.m. to 12.30 p.m.	2p.m. to 5.30p.m.

MEALS ON WHEELS & LUNCHEON CLUB FOR OLD PEOPLE

I am grateful to Mrs.B.Readymartcher, County Organiser of the Women's Royal Voluntary Service, for providing the following information relating to meals provided by the W.R.V.S.

Meals on Wheels - served three days per week

Total number of meals served in 1968	-	6,350
--------------------------------------	---	-------

Luncheon Club - open three days per week

Total meals in 1968	-	3,627
---------------------	---	-------

CARE OF THE ELDERLY

The problem of caring adequately for old people is one that gets more and more difficult each year. Every effort is made to support old people in the community, but often, despite the combined efforts of the General Practitioner, Welfare Officer, Home Helps, District Nurses and W.V.S., institutional care is necessary. The shortage of hospital beds for the aged and chronic sick continues and many people in need of hospital care have weeks to wait before being admitted.

During 1968, it was not necessary to take any action under the provisions of Section 47 of the National Assistance Act 1948.

HEALTH EDUCATION

This important aspect of Public Health continued in the Borough during the year.

Members of the Health Department of the Borough Council have given numerous talks on Health matter to various local organisations. The County Council Staff, working in the Borough have also been active in this field. The Health Visitors have visited Secondary Schools and given regular lessons on Mothercraft, Child Care, Home Nursing and simple first aid.

RELAXATION & MOTHERCRAFT CLASSES FOR EXPECTANT MOTHERS

These were held weekly, the average attendance being 12. Talks on pregnancy and normal childbirth were given by the Medical Officer; and mothercraft, relaxation and breathing by the Health Visitors.

Visits to the Maternity Home were arranged to meet Matron and to dispel any fears or apprehension the expectant mothers might feel.

From time to time films are shown.

CHIROPODY SERVICE

Lindsey County Council provide this service in Cleethorpes, the work being carried out by chiropodists employed by the County Council. The scheme now caters for the elderly, expectant mothers, the physically handicapped and mentally subnormal persons.

Treatment is provided at Cleethorpes Clinic but in case of a person unable to attend the treatment centre, the chiropodist will visit the patient's own home to provide treatment. The County Council makes a fixed charge of 2/6d per treatment, with the exception of persons in receipt of a Social Security supplementary benefit, in which case treatment is provided free of charge.

CERVICAL CYTOLOGY

The cervical smear test for cancer of the cervix continues to be widely available through:-

(a) the patient's General Practitioner, (b) Lindsey County Council at Cleethorpes Clinic, (c) the hospital Out-Patients' Department and (d) the Family Planning Clinic.

It is regrettable that the female members of the community do not make better use of the facilities provided and come forward for the test.

FAMILY PLANNING

The National Health Service (Family Planning) Act 1967 has provided local health authorities with the power to make arrangements for the giving of advice on contraception and for the supply of contraceptive substances and appliances to the public generally and no longer only to those seeking advice on medical grounds. No distinction is to be drawn between married and unmarried persons. No charge is to be made for advice or examination but charges can be made for materials.

Lindsey County Council operate a scheme and have arranged for the Family Planning Association to provide the service as the County Council's agents.

The County Council have decided to charge for the supply of prescriptions, drugs and appliances, though the amount to be recovered will take account of each person's financial circumstances.

The County Council have also decided that parental consent shall not be necessary for any category of patient over 16 years of age.

The service locally will be available through the Family Planning Clinic at Milton Road, Nunsthorpe, Grimsby.

PARTICULARS OF IMMUNISATION AND VACCINATIONS
CARRIED OUT IN CLEETHORPES DURING 1968

It is regretable that due to the recommendations of the organisation and methods team, the County Medical Officer is no longer able to provide details of the immunological procedures carried out in the Borough during 1968.

SCHOOL HEALTH SERVICE

It is regretable that due to the recommendations of the organisation and methods team, the County Medical Officer is no longer able to provide details of the examinations carried out in the Borough during 1968.

HEALTH DEPARTMENT,

COUNCIL HOUSE,

CLEETHORPES.

Telephone,
Cleethorpes 62822

JULY 1969

To: The Mayor, Aldermen and Councillors of the Borough of Cleethorpes.

LADY AND GENTLEMEN,

I have the honour to present my Annual Report for the year ending 31st December 1968.

In both the Departments under my control there has been an increase in work. In the Health Department there has been a pleasing increase in the number of house improvements carried out, as can be seen in the section in Improvement Grants, perhaps as a result of the special attention which has been paid to these. In the Cleansing Department there has again been an increase in the volume and weight of refuse, and in the number of properties to be cleared.

I have to thank the staff of both the Health and Cleansing Departments for their support during the year. My thanks are also due to Dr.J.M.B.Carr, and the Chairman and members of the Health Committee for their continued confidence in me.

I am, Lady and Gentlemen,

Yours obediently,

J.W.FINCH

Chief Public Health Inspector.

SANITARY CIRCUMSTANCES IN THE AREA

REFUSE COLLECTION

The quantity of refuse collected from houses during the year was 11,613 tons which is a 6.6% increase over that collected in the previous year. According to the report of the Ministry of Housing and Local Governments Working Party on Refuse Collection, the weight of refuse collected per house is falling, and the volume is increasing. Their reasoning is that an increase in the quantity of waste packaging material, due to the change in retailing methods, is accompanied by a reduction in the (weighty) quantity of ash from fireplaces due to the increased use of fuels such as gas and electricity for space heating.

Although we have no smoke control areas in Cleethorpes, there has no doubt been a considerable increase in the number of gas and electric fires in the town, with a consequent reduction in the quantity of solid fuel burned. The Working Party's criteria apply, in that there has been a great increase in the volume of rubbish. But in Cleethorpes this has been accompanied by a building boom. From the time the last re-organisation of the collection teams was made in 1966, nearly 600 new houses had been built by the end of the year and this accounts in the main for the increased weight. This spate of building shows no sign of slowing down.

The work has been carried out with little complaint from members of the public. The wet weather, which seemed to last all year, had its effect, because of the twenty year old agreement that the men have with the Council that they should not have to collect refuse during rain. As a result it was necessary to work more overtime than should have been the case. A weekly service was maintained throughout the year.

SPECIAL COLLECTIONS

The special collection of bulky items of household refuse was continued during the year, 534 such collections being made. Some of these visits entailed removing practically the whole contents of a house. Any item of bulky household refuse is removed, but the service does not include the removal of building rubble and garden refuse - these can however be accepted from Cleethorpes residents at the disposal point at all reasonable hours.

REFUSE DISPOSAL

This was by means of controlled tipping. In the summer months in the Willows site at the rear of King George V Playing Field and during the winter on the Marine Embankment.

A report on the future of refuse disposal was considered by the Health Committee during the year, who have been giving the subject special and serious consideration.

SALVAGE

The value of items sold was as follows:-

	<u>1968</u>			<u>1967</u>		
	£	s	d	£	s	d
Paper	1,472	3	6	1,304	11	9
Fibreboard	6,011	16	6	4,919	14	1
Textiles	779	0	0	939	13	0
Metals	93	15	0	116	2	4
Other items	22	6	6	56	8	6
	<hr/>			<hr/>		
	£8,379	1	6	£7,346	19	8
	<hr/>			<hr/>		

We have, as can be seen, made a considerable recovery in the income from salvage this year, after last year's slight setback. We continued to sell the whole of our production of paper and fibreboard to Messrs. Thames Board Mills Ltd., with whom a contract was made in 1967.

Although income from this source is now higher than it has ever been, I am sure that it could be even higher. Few of the Council's undertakings have a higher yield than this source. If the public were more aware that by keeping newspaper and cardboard separate from the remainder of rubbish, that is not putting it in the dustbin and thus keeping it clean, they were actually helping to reduce the rate demand, they would help more.

Apart from this purely local reason, it is surely better from the national point of view that we should salvage what can be salvaged and thus save imports.

WATER SUPPLY

The supply of water is by pipe from the North East Lincolnshire Water Board, and is satisfactory both in quality and quantity. It is sampled regularly by this Department and examined bacteriologically and during the year twelve such samples were reported to be satisfactory.

Information received from the Water Board discloses that there is a fluoride content of less than 0.1 parts per million in water from the Weelsby Pumping Station which is supplied to the Borough.

The result of the chemical analysis of a sample, supplied to us by the Water Board, taken on 27th December 1968, is as follows:-

pH	7.40
Colour (° Hazen)	1
Turbidity (Silica scale)	Nil
Dissolved solids	324
Conductivity (Reciprocal megohms)	457

Alkalinity	230
Total hardness	250
Non Carbonate hardness	20
Calcium hardness	220
Magnesium hardness	30
Free carbon dioxide	19
Chlorides as Cl	17.5
Nitrate Nitrogen	3.9
Nitrite Nitrogen	Nil
Free ammoniacal nitrogen	Nil
Albuminoid nitrogen	Nil
Silica as S_2O_2	7.7
Oxygen absorbed from Permanganate 4 hours at $27^{\circ}C$	0.12
Phosphate as PO_4	Nil
Sulphate as SO_4	10
Iron in solution	0.1
Manganese	Nil
Sodium as Na	1
Potassium as K	5
Fluoride as F	0.1
No. of coliforms/100 ml.	Nil

Excepting pH all results expressed as p.p.m. $CaCO_3$ unless otherwise stated.

In addition three houses receive their supply from private boreholes. (The mains supply is available but the residents prefer to use their own). These were sampled during the year and bacteriological examination showed them to be satisfactory.

No. of houses supplied from public mains in house	11674
No. of houses provided from private sources	3

SEWERAGE AND SEWAGE DISPOSAL

Each house in the town is provided with a water closet and all parts of the town are served. Sewage is collected in a holding tank at the outfall pumping station. When the tide is at its highest and starting to ebb the contents of the tank are released through a $\frac{3}{4}$ mile long outfall, and are thus carried out to sea by the ebbing tide.

Orders have been placed for new pumping machinery and test bores made by the Council's Consulting Engineers in connection with the provision of a new sewer. These works are part of the scheme drawn up by the Consulting Engineers with a view to preventing the surcharge of sewers with consequent flooding of streets in a few low-lying parts of the town at times of heavy and prolonged rain.

MAINTENANCE OF DRAINS AND SEWERS

During the year 154 visits were made in connection with the maintenance of sewers which are dealt with under Section 24, Public Health Act 1936. It was necessary to serve 39 notices requiring the repair of sewers. At the same time 521 visits were made in connection with clearing choked house drains of obstruction; 188 visits were made in connection with the maintenance of house drains and 30 drain tests were carried out. The I.D.P. attendant cleared 503 drains and sewers of obstruction.

It was necessary to serve 9 notices requiring the repair of house drains and 3 notices were served requiring such drains to be cleared of obstruction.

It will be seen that once again a heavy use was made of this service. More than 100 more drains and sewers were cleared than was the case in 1967. There seem to be a number of reasons for this. First, as I have said in previous reports, drains and sewers in Cleethorpes, with their minimal gradients, are very liable to choke - this cannot be helped and is due to the fact that we are a flat coastal town. Secondly, the increased use of so-called "disposable" articles - nappies, sanitary towels, dressings, etc, the easiest place to dispose of these is in the w.c. pan, with the result that there is often a consequent blockage of the house drains. In one sewer cleared towards the end of the year scores of small plastic bags were found. Enquiries elicited the information that they had been flushed into his home's w.c. by a man who had to use them for medical reasons - he had been told that they were "disposable".

Thirdly, the service we give is cheap and efficient - we even have builders who having received an order to unblock house drains ask us to do it for them. With private house drains, of course, if it is necessary to open the ground in order to carry out the work, the owner is always asked to arrange for his own contractor to do this, otherwise a charge is made for work we carry out.

PASSAGE PAVING

During the year 103 visits were made in connection with the repair of common passages, serving a number of houses, 68 notices were served requiring repair and 92 yards of concreting carried out. In addition 148 visits were made because of choked or defective passage surface gullies, 119 notices were served in their connection, and the I.D.P. attendant cleared 58 of obstruction.

AIR POLLUTION

Because of certain difficulties with regard to the maintenance of the station, it was decided to close the smoke measuring station at Barcroft Street School during the year.

The average daily pollution at the Health Department station at the Council House was as follows:-

AIR POLLUTION (CONTINUED)

	<u>Smoke</u>	<u>SO₂</u>
January	124	122
February	68	90
March	52	78
April	Pump out of action for repair	
May	42	30
June	13	25
July	11	25
August	11	18
September	27	29
October	56	61
November	61	39
December	117	109

(figures are in microgrammes per cubic metre)

The now familiar pattern of a pollution caused by domestic burning of bituminous coal can once again be seen.

RODENT CONTROL

During the year the Council's Rodent Operative has treated 340 dwelling houses and 54 other premises on complaint of rodent infestation or as a result of inspection. In order to complete these treatments he has made a total of 2287 visits during the year. In addition the Public Health inspections have made a total of 120 visits specifically for rats and mice. Treatment was by means of Warfarin poison in an oatmeal base.

Two treatments of the sewerage system were also carried out, one in the spring and the other in the autumn.

NUISANCES

Details of nuisances abated during the year:-

Accumulations	97
Foul ditches, etc.	3
Fowls, pigs, etc.	13
Noise	17
Miscellaneous	160
Drainage	561

INSECT PESTS

167 visits were made in connection with the destruction of insect pests and 108 treatments were carried out by the I.D.P. attendant.

Details of the insects for which treatment was carried out are as follows:-

INSECT PESTS (CONTINUED)

Cockroaches	91
Fleas	2
Wasp nests	11
Miscellaneous	4

FACTORIES AND WORKPLACES

BAKEHOUSES

Number in district	12
Number of underground bakehouses	Nil
Number of inspections	32
Contraventions of Factories Act	Nil

BATHING POOL

Samples of water in the bathing pool were taken from the deep and shallow ends each week during the season. In all, 30 were taken, all except three proving to be satisfactory upon bacteriological examination.

PADDLING POOL

Samples of the water in the Paddling Pool in Thrunscoe Park were taken each week during the season. 11 samples in all were taken and submitted for bacteriological examination, and of these 10 were reported to be satisfactory. Daily testing of the water for chlorine content was also carried out to ensure an adequate supply of chlorine was present in the water. This is necessary because the pool is of the fill and empty type and chlorine is added by hand.

HOUSING

Total number of dwellings erected during the year:

1.	By the Local Authority	Nil
2.	By other Local Authorities	Nil
3.	By other bodies or persons	286
4.	Number allocated for replacing houses subject to demolition orders	Nil

RENT ACT 1957

(a) Application for Certificates of Disrepair:

Number of applications for certificates	Nil
Number of decisions to issue certificates	Nil
Number of undertakings given by landlords	Nil
Number of certificates issued	Nil

(b) Applications for cancellation of Certificates of Disrepair:

Application by landlords to cancel certificates	Nil
Number of certificates cancelled	Nil

INSPECTION OF DWELLING HOUSES DURING THE YEAR

1.	a. Total number of houses inspected for Housing defects	112
	b. Number of inspections made for that purpose	797
2.	Number of houses found not to be in all respects fit but capable of repair at reasonable expense	112

REMEDY OF DEFECTS WITHOUT SERVICE OF FORMAL NOTICES

Number of houses rendered fit in consequence of informal action by the Local Authority or its Officers	65
--	----

ACTION UNDER STATUTORY POWERS DURING THE YEAR

A.	Proceedings under Section 9 Housing Act 1957	
1.	Number of houses in respect of which notices were served requiring repairs	51
2.	Number of houses rendered fit after service of formal notice:	
(a)	By Owner	53
(b)	By Local Authority in default of owner	Nil
B.	Proceedings under the Public Health Acts:-	
1.	Number of houses in which notices were served requiring defects to be remedied	196
2.	Number of houses in which defects were remedied after service of formal notices:	
(a)	By Owner	16
(b)	By Local Authority in default of owner	137
C.	Slum Clearance - Procedure under the Housing Acts:	
a)	Number of dwelling houses in respect of which Demolition Orders were made	Nil
b)	Number of dwelling houses demolished in pursuance of Demolition Orders	Nil
c)	Number of dwelling houses, or parts, subject to Closing Orders	Nil
d)	Number of dwelling houses, or parts, rendered fit by undertakings	Nil
e)	Number of dwelling houses included in confirmed Clearance Orders	Nil
f)	Number of dwelling houses demolished in pursuit thereof	Nil
g)	Total number of dwelling houses in which Demolition Orders are operative and which are still occupied except under the provisions of Sections 34, 35 and 46 of the Housing Act 1957	Nil

h)	Total number of houses occupied under Sections 34, 35 and 46 Housing Act 1957	Nil
i)	Houses demolished or closed voluntarily by owners which would otherwise have been the subject of statutory action to secure demolition or closure	Nil

ANALYSIS OF WORK CARRIED OUT

Brickwork repointed	5
Ceiling plaster repaired	15
Chimney pots renewed	6
Chimney stacks repaired	27
Doors repaired	19
Damp proof courses provided	1
Dampness remedied	83
Eaves gutters repaired	57
Firegrates repaired	8
Floors repaired	23
Flushing apparatus repaired	2
Inspection Chambers repaired	3
Rain water pipes repaired or renewed	18
Roofs repaired	99
Sashcords renewed	19
Skirting boards repaired	14
Verge fillets repaired	22
Wall plaster repaired	16
W.C's repaired	10
W.C. seat fixed	2
Windows repaired or renewed	64
Yards repaved or repaired	8
Miscellaneous	4

IMPROVEMENT GRANTS

Number of dwellings for which applications for grants have been received

a)	Standard Grant	123
b)	Discretionary Grant	Nil

Number of dwellings subject to grant

a)	Standard Grant	119
b)	Discretionary Grant	Nil

Number of houses owned by the Local Authority which have been the subject of grant aid by the Ministry 3

Number of visits made for the purposes of advice, inspection and supervision of work 1317

The Survey of houses to check in the number lacking standard amenities continued and the information disclosed by this is as follows:-

1. Tenanted houses - Total visited - 234

Number lacking:-

a) Bath in bathroom	143
b) Wash hand basin	151
c) Hot water over	
i) Sink	105
ii) Bath	147
iii) Wash hand basin	154
d) Ventilated food store	112
e) Internal W.C.	184

2. Owner Occupied houses - Total visited - 562

Number lacking

a) Bath in bathroom	71
b) Wash hand basin	97
c) Hot water over	
i) Sink	47
ii) Bath	74
iii) Wash hand basin	99
d) Ventilated food store	125
e) Internal W.C.	205

3. No. of houses with all five standard amenities 376

No. of houses lacking one or more of these amenities 420

No. where access not obtained 74
875

4. In answer to the question "would you like to have all five standard amenities in your house?" occupiers replied:-

Yes	59.6%
No	39.7%
Don't know	0.7%

The high percentage of people lacking standard amenities who say they don't want them is surprising. It is partly explained by the fact that many of the occupiers in this part of the town are older people who don't want the upset and feel they can't afford the work, even with a grant. Many, however, change their minds and subsequently approach us about a grant, after being told how much they would get.

It will be noted that 70.6% of the houses are owner occupied.

PET ANIMALS ACT

Four premises were licensed under the Act and inspected to ensure compliance with the conditions of license.

HOTELS AND GUEST HOUSES

71 visits were made during the year to premises advertising in the Cleethorpes Guide.

INSPECTION AND SUPERVISION OF FOOD

ICE CREAM

During the year 50 visits were made to premises where ice cream is manufactured, stored or sold. Nine manufacturers were registered and 137 premises in which ice cream is stored or sold. 18 samples were submitted to the Public Health Laboratory, Lincoln, for examination by the Methylene Blue test, and the results were as follows:-

Grade 1	.	.	16	Grade 2	.	.	2
Grade 3	.	.	Nil	Grade 4	.	.	Nil

My comments in these results are the same as I made last year. Very little ice cream is sold nowadays which is not produced under ideal hygienic conditions in large factories. When it leaves the manufacturer it is in perfect condition. Where a grade 3 or grade 4 result is obtained it is because the cleaning and sterilising of a retailers whipped ice cream machine has been less than perfect. In every case where such results were obtained follow up samples were in order after a visit had been made to give advice.

FOOD

a) No. of premises

	<u>No. of premises.</u>	<u>No. of inspections</u>
Manufacturing premises	5	16
Butchers shops	35	59
Fish Friers	26	49
Bakehouses	12	32
Grocers shops	144	110
Ice cream premises	176	50
Catering premises	60	159
Fruiterers and greengrocers	19	28
Fishmongers	10	10
Shellfish premises	5	16
Mobile shops and stalls		7
Sweetshops	27	20
Bread and cake shops	16	27
Miscellaneous		57

- b) No. of premises fitted to comply with Regulation 16 - 570
c) No. of premises to which Regulation 19 applies - 185
d) No. of premises fitted to comply with Regulation 19 - 185

The general standard of hygiene of food premises in the town was satisfactory and it was not found necessary to institute proceedings in any instance.

MEAT INSPECTION

The slaughter of animals for human consumption continued at Wilson Street Slaughterhouse. The number of animals killed was 2157

CARCASE AND OFFAL INSPECTED AND CONDEMNED, IN WHOLE OR IN PART

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number killed (if known)	562	-	3	1147	445	-
